

Your task

This week you are going to be researching and ordering some key events chronologically on a time line.

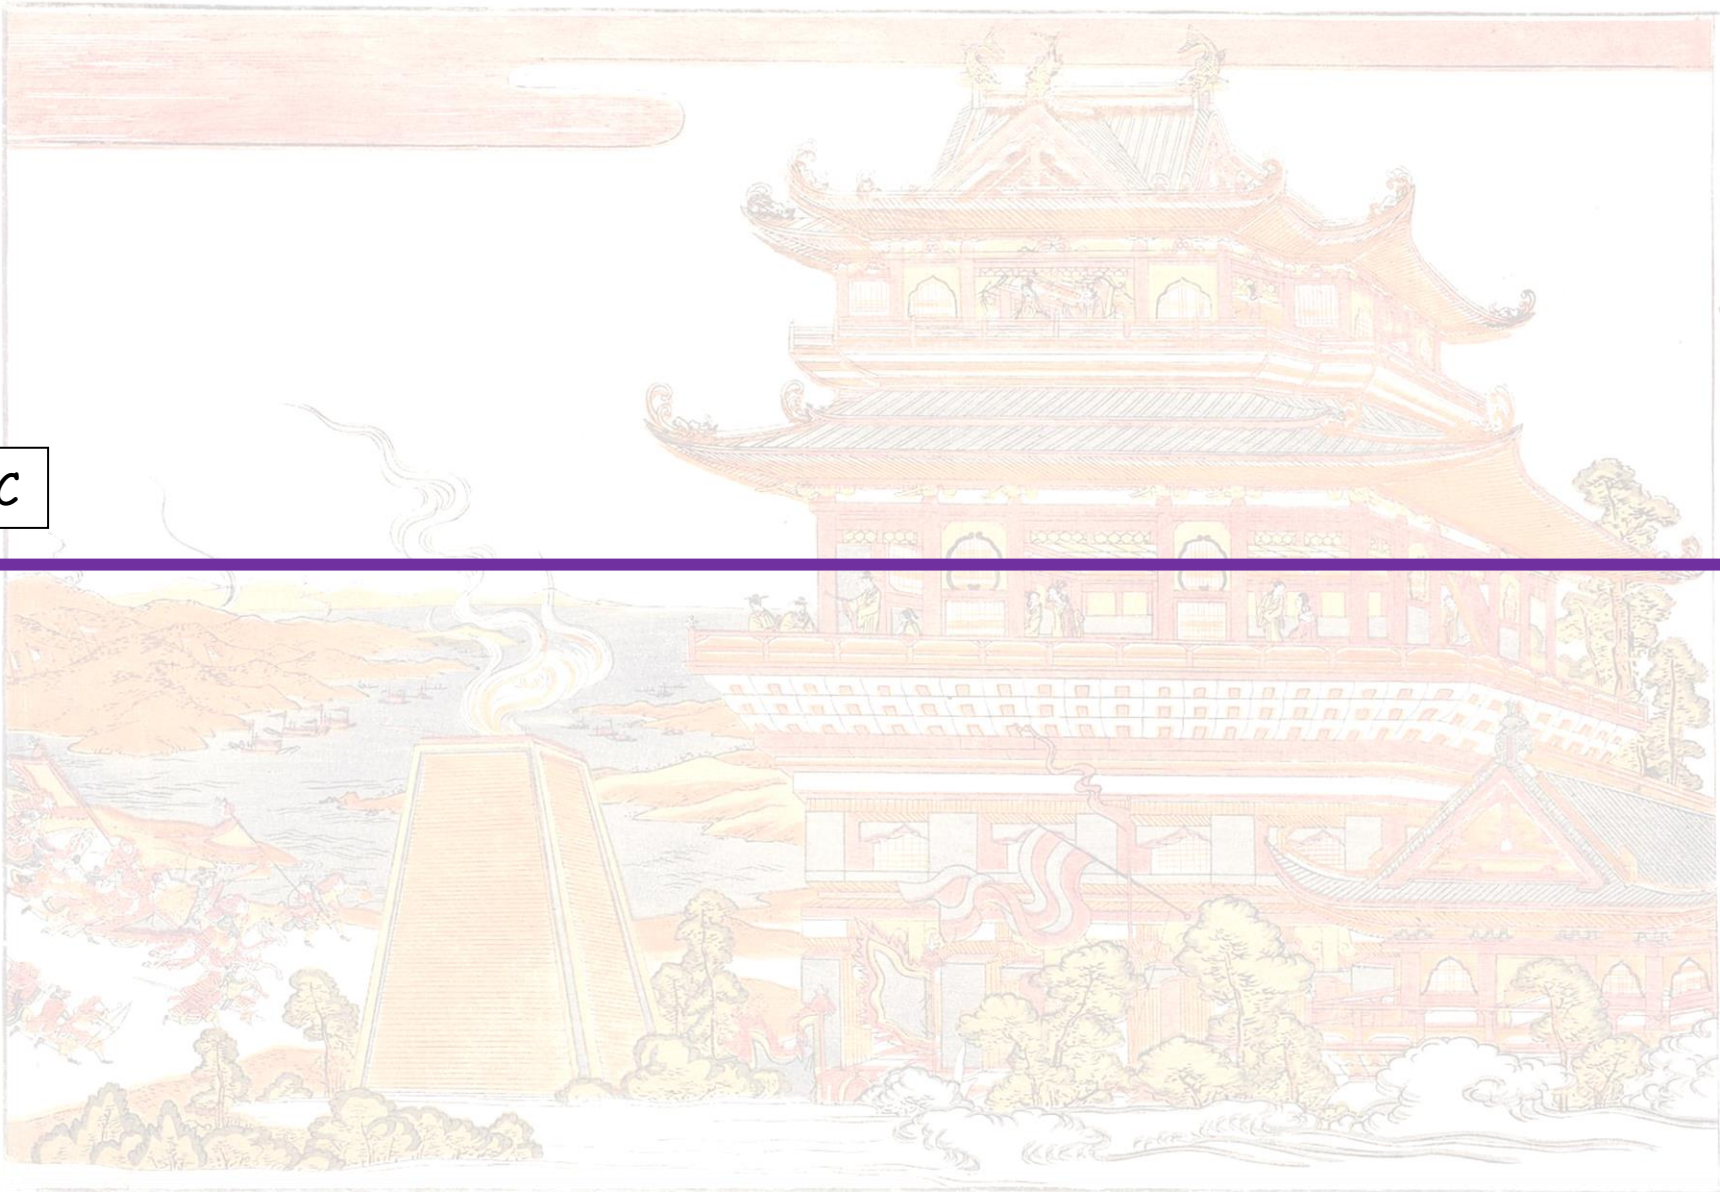

Chronological order is a method of organization in which actions or events are shown in the order they occur or occurred in the past. This is a bit like the events of a story. The life or experiences of our main character start when they are young and end when they are old or older.

The events that you must order have no date! Therefore you will need to research when each event happened, order them on a timeline labelling the date and the description of the event.

 <p>Emperor Chang takes control.</p>	 <p>The Shang Dynasty ushers the use of bronze.</p>	 <p>Most oracle bones found during King Wu Ding's rule.</p>
 <p>Fu Hao, wife of King Wu Ding, dies.</p>	 <p>Cruelty and taxes cause the slaves to revolt.</p>	 <p>Shang Dynasty ends, Chou Dynasty begins.</p>
