

Task 1: Look at the map below. Isn't it beautiful? I mean, it's not as beautiful as Mrs Fenton but it's a close second! Use a map or atlas (or google Earth) to label the following mountain ranges accurately on your map: Pyrenees, Alps, Carpathians, Apennines, Urals, and Balkan Mountains.

Task 2: research where the highest peaks are in located in Europe, label them on your map and include their peak height in feet.
