

Rainforest Climate Questions

You may use a calculator to help you with calculations where needed.

1. How much rainfall does the tropical rainforest receive in a year?
2. What is the average annual rainfall? (Remember to find the average add up all the amounts of rainfall then divide by 12 - use a calculator)
3. Which two months are the wettest and which two months are the driest? Give the amounts of rain these months have.
4. What is the average temperature in the tropical rainforest?
5. Describe the climate in the UK using the graph below and your own knowledge.

6. Compare and contrast this graph to the rainforest climate. Write a paragraph describing any similarities or differences.
