St Mary's Catholic Academy Progression within the Science Curriculum 2025-26

						sound source increases.			
<p>Physics Forces and magnets</p> <p><u>Concepts</u> Cause and effect Similarity and difference</p>	<p>Explore and talk about different forces they can feel.</p>				<p>Compare how things move on different surfaces.</p> <p>Notice that some forces need contact between 2 objects, but magnetic forces can act at a distance.</p> <p>Observe how magnets attract or repel each other and attract some materials and not others.</p> <p>Compare and group together a variety of everyday</p>		<p>Explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object.</p> <p>Identify the effects of air resistance, water resistance and friction, that act between moving surfaces.</p> <p>Recognise that some mechanisms including</p>		<p>Types of forces. Balanced and unbalanced forces.</p>

St Mary's Catholic Academy Progression within the Science Curriculum 2025-26

					<p>materials on the basis of whether they are attracted to a magnet and identify some magnetic materials.</p> <p>Describe magnets as having 2 poles.</p> <p>Predict whether 2 magnets will attract or repel each other, depending on which poles are facing</p>		<p>levers, pulleys and gears allow a smaller force to have a greater effect.</p> <p><i>Compare and group together everyday materials on the basis of their properties, including their response to magnets (materials).</i></p>		
<p>Physics <i>Light</i></p> <p><u>Concepts</u> Cause and effect</p>					<p>Recognise that they need light in order to see things and that dark is</p>		<p>Recognise that light appears to travel in straight lines.</p> <p>Use the idea that light</p>	<p>Types of energy.</p> <p>Light, reflection and refraction.</p>	

St Mary's Catholic Academy Progression within the Science Curriculum 2025-26

				<p>the absence of light.</p> <p>Notice that light is reflected from surfaces. Recognise that light from the sun can be dangerous and that there are ways to protect their eyes.</p> <p>Recognise that shadows are formed when the light from a light source is blocked by an opaque object.</p> <p>Find patterns in</p>		<p>travels in straight lines to explain that objects are seen because they give out or reflect light into the eye.</p> <p>Explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes.</p> <p>Use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them.</p>	
--	--	--	--	---	--	---	--

St Mary's Catholic Academy Progression within the Science Curriculum 2025-26

					the way that the size of shadows change.				
<p>Physics</p> <p>Earth and Space</p> <p><u>Concepts</u></p> <p>Changes</p> <p>Similarity and Difference</p>			<p><i>Observe changes across the four seasons (seasonal changes).</i></p> <p><i>Observe and describe weather associated with the seasons and how day length varies (seasonal changes).</i></p>			<p>Describe the movement of the Earth and other planets relative to the sun in the solar system.</p> <p>Describe the movement of the moon relative to the Earth.</p> <p>Describe the sun, Earth and moon as approximately spherical bodies.</p> <p>Use the idea of the</p>		<p>The solar system; stars and the moon.</p>	

St Mary's Catholic Academy Progression within the Science Curriculum 2025-26

							Earth's rotation to explain day and night and the apparent movement of the sun across the sky.		
Physics Electricity						<p>Identify common appliances that run on electricity.</p> <p>Construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers.</p> <p>Identify whether or</p>	<p><i>Compare and group together everyday materials on the basis of their properties, including their electrical conductivity (properties and changes of materials).</i></p>	<p>Associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit.</p> <p>Compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off</p>	Types of energy. Static charge.

St Mary's Catholic Academy Progression within the Science Curriculum 2025-26

						<p>not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery.</p> <p>Recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit.</p> <p>Recognise some common conductors and insulators, and</p>		<p>position of switches.</p> <p>Use recognised symbols when representing a simple circuit in a diagram.</p>
